Total	73,615	70,057	5	458,968	443,777	3

3. Market Performance in July 2026

The sales momentum continues in July 2026 with the Total Industry Volume (TIV) registering a positive month-on-month growth of 8%. Besides being a full working month, increase in TIV in July 2026 is also attributed to:

- the highest monthly production volume recorded since January 2024 (30-month high) mainly contributed by National Makes;
- improvement in pick-up sales by 30% compared to June 2026 contributed by the announcement on BUDI Diesel subsidy on July 1, 2026; and
- aggressive sales promotion campaign from MAA members.

4. Outlook for August 2026

Sales is expected to maintain its current momentum into August 2026 supported with aggressive promotion.
